DESCRIPTORS	*Child Development; Colleges; *Early Childhood Education; *Educational Programs; Higher Education; Junior Colleges; Postsecondary Education; *Preschool Education; Schools of Education; *Teacher Education; Technical Institutes; *Training; Universities
IDENTIFIERS	*CDA Credential

ABSTRACT

This directory provides information on programs in child development and early childhood education offered at technical colleges, two- and four-year colleges, and universities at both the undergraduate and graduate levels. Included in each entry are the institution's name and mailing address, a listing of degrees offered in the areas of child development and/or early childhood education, and the name of a person connected with the program to whom inquiries for additional information can be directed. If an institution offers courses directly related to preparation for the Child Development Associate (CDA) credential, this fact is also noted. Entries are based on data supplied by more than 700 institutions in the United States, Guam and Puerto Rico which responded to the compiler's request for information. (Author/MP)

INTRODUCTION

This directory provides information on programs in child development and early childhood education offered at technical colleges, two- and four-year colleges, and universities at both the undergraduate and graduate levels. Included in each entry is the institution's name and mailing address, a listing of degrees offered in the areas of child development and/or early childhood education, and the name of a person connected with the program to whom inquiries for additional information can be directed. If an institution offers courses directly related to preparation for the CDA credential, this fact is also noted.

The Directory was prepared by the staff of the ERIC Clearinghouse on Early Childhood Education and published by the National Association for the Education of Young Children. All institutions of higher education in the United States and American Samoa, the Canal Zone, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, Eastern Caroline Islands, and the Virgin Islands were invited to contribute information for the Directory. We appreciate the cooperation of those whose responses made the Directory possible.

THE ERIC SYSTEM AND ERIC/ECE

The Educational Resources Information Center/Early Childhood Education Clearinghouse (ERIC/ECE) is part of a system of 16 clearinghouses sponsored by the National Institute of Education to provide information about current research and developments in the field of education. The clearinghouses, each focusing on a specific area of education (such as early childhood, teacher education, languages and linguistics), are located at universities and other institutions throughout the United States.

Each clearinghouse staff searches systematically to acquire current, significant documents relevant to education. These research studies, conference proceedings, curriculum guides, program descriptions and evaluations, and other publications are abstracted and indexed in Resources in Education (RIE), a monthly journal. RIE is available at libraries, or it may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington D.C. 20402. The documents themselves are reproduced on microfiche by the ERIC Document Reproduction Service for distribution to libraries and individuals.

Another ERIC publication is Current Index to Journals in Education (CIJE), a monthly guide to periodical literature which cites articles in more than 700 journals and magazines in the field of education. Most citations include annotations. Articles are indexed in CIJE by subject, author, and journal contents. CIJE is available at libraries or by subscription from Oryx Press, 3930 E. Camelback Rd., Suite 206, Phoenix, AZ 85018.

The Early Childhood Education Clearinghouse (ERIC/ECE) publishes topical papers, bibliographies, resource lists, and a newsletter for persons interested in child development, child care and childhood education (for children from birth to age 12). The clearinghouse staff also answers individual information requests and provides computer searches of RIE and CIJE and other data bases. For more information, write ERIC Clearinghouse/Early Childhood Education, University of Illinois, 805 W. Pennsylvania Ave., Urbana, IL 61801.

*ERIC/ECE is responsible for research documents on the social, psychological, physical, educational, and cultural development of children from the prenatal period through pre-adolescence (age 12). Theoretical and practical issues related to staff development, administration, curriculum, and parent/community factors affecting programs for children of this age group are also within the scope of the clearinghouse.

Selected NAEYC Publications

If you found this book helpful, you may want to order these and other NAEYC publications.

Code #	Title	Price
303	A Beginner's Bibliography	$ .55

Directory of Educational Programs for Adults Who Work with Children

Find . .

what programs in child development and early childhood education are offered by—

- technical colleges
- two- to four-year colleges
- universities (at the undergraduate and graduate level)

and **what degrees** are offered by these institutions.

who is the person to write (or telephone) regarding further information about each institution's program.

where these programs are offered. (All 50 states and the District of Columbia, *plus* Guam and Puerto Rico.)

which institutions offer courses directly related to preparation for the CDA credential.
and

why this directory will become an indispensable resource to those in the early childhood field and those who want to enter it.
